

**EPC SOLUTIONS  
FOR SOLAR POWER PROJECTS**

## ABOUT **MONEX**<sup>™</sup>

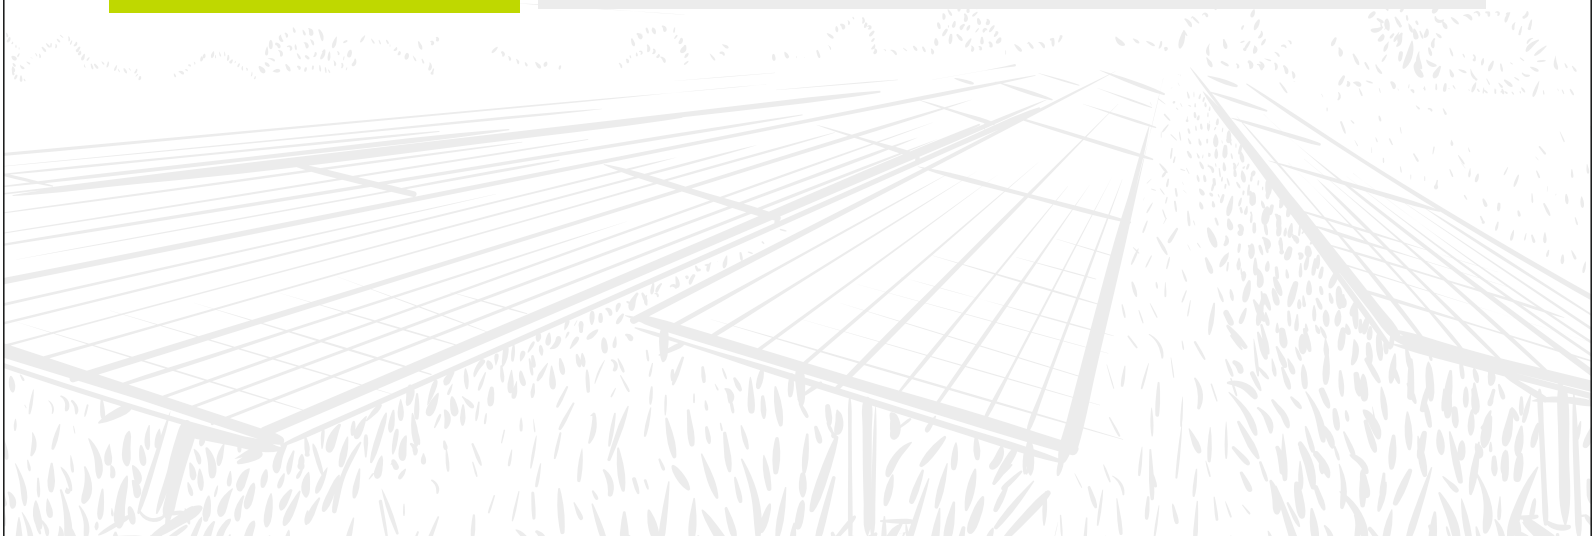

SUN is the greatest source of energy. It produces solar power which is then transformed into thermal or electrical energy for a plethora of uses. It is the cleanest and most rich sustainable power source accessible in this world.

Beholding the immense utilities of solar power, we at Monex Electro Products are passionate to grow and prosper the solar industry. The right blend of our tremendous zeal and immense expertise has got us to accomplish several residential and commercial solar projects. All this made us reliable, worthwhile, and our customer's favourite.

Monex Electro Products is renowned for its highly effective and efficient EPC Services. We are well-learned and experienced professionals and provide appropriate energy solutions to help a particular facility to solve its energy problems.

### MONEX BUSINESS VERTICALS

<b>EPC MW PROJECTS</b>	<b>Mega Watt (M.W.) Scale Utility</b>
<b>OFF GRID/KW ROOFTOP</b>	<b>Kilo Watt (K.W.) Systems</b>
<b>MODULES &amp; PRODUCTS</b>	<b>PV Modules Solar   Street Lights Solar Lanterns Home Lighting Systems</b>
<b>SOLAR WATER PUMP</b>	<b>Complete replacement for Diesel pump used for irrigation</b>
<b>POWER GENERATION</b>	<b>Independent Solar Power Generation</b>

## EPC COMMISSIONED

**Solar Rooftop projects**

**50Kw Commercial Project -  
Godhara Kutch**

## 4 MegaWatt state of the art turnkey based project with automatic sun tracking system at Devsar-Kutch

### EXPERIENCE OUR REVOLUTIONARY SERVICES

- VALUE ENGINEERING** - Industry-leading innovations in system design and construction to optimize energy production and system reliability
- SPEED OF EXECUTION** - Record Time Project Commissioning Credentials
- ROBUST BACKGROUND** - Leading corporate conglomerate minimizing the risk associated with any size of project.
- IN HOUSE FACILITIES** - In-house manufacturing of PV modules enabling optimal costing, quality and delivery
- PROVEN EXPERIENCE** - A solar energy powerhouse, backed by portfolio of some of the most significant solar energy projects & professionals
